STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS
ENERGY FACILITY SITING BOARD

IN RE: INVENERGY THERMAL DEVELOPMENT LLC's :
APPLICATION TO CONSTRUCTION THE : DOCKET No. SB-2015-06
CLEAR RIVER ENERGY CENTER IN :
BURRILLVILLE, RHODE ISLAND :

**THE TOWN OF BURRILLVILLE'S 6th SET OF DATA REQUESTS TO
INVENERGY THERMAL DEVELOPMENT LLC**

Traffic

- 6-1 With the increase in traffic through densely settled areas, what is the increased risk statistically of accidents and risk of a hazmat spill?
- 6-2 What is the emergency response plan should a large tanker truck or other tractor trailer be involved in an accident and lose their cargo?
- 6-3 Has any consideration been given to improving Jackson School House Road or Buck Hill Road and to use one as a bypass of the villages of Chepachet and Pascoag?
- 6-4 If Route 44 and 100 are the primary trucking routes for construction, what are the contingencies for compensation should homes be damaged by the impact of the truck traffic?
- 6-5 Is there a plan to repair roads damaged by traffic from construction?
- 6-6 Where is the proposed laydown area? Has this location and its potential impact been included in the traffic studies?

Construction Schedule

- 6-7 Please describe in detail the planned start and end times of construction for each day as well as planned workdays (Business days M-F or full week Sun-Sat).

Noise

- 6-8 Please explain in detail how the adjacent gas compression station noise levels will impact the noise levels of the power plant (what will the projected combined noise levels be)?

Water

- 6-9 Explain in detail the level and frequency of testing for adjacent water sources (to well 3A) for MTBE contaminants to ensure the extraction of water from well 3A does not cause the pollution to spread to other water sources.

- 6-10 Explain in detail your remediation plan should the contamination from well 3A spread to surrounding water sources/areas.
- 6-11 How does Invenergy intend to overcome the court order shutting down Pascoag well 3 and 3A?

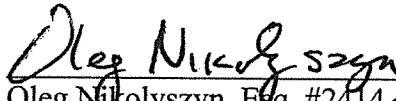

Sewer

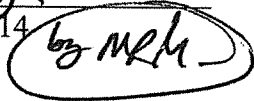

- 6-12 What is the second option for water discharge if the Burrillville Sewer Department can't handle, treat, or discharge the contaminated water?

Air

- 6-13 Please identify the anticipated combined air pollution levels in the immediate area when considering this proposed power plant, the emissions generated by the adjacent gas plant, and Ocean State Power.
- 6-14 How does the height of the "smokestack" affect emissions disbursement and, specifically, the abutting properties?

Respectfully submitted,
Town of Burrillville
By its attorneys
