ENERGY FACILITY SITING BOARD

INVENERGY THERMAL DEVELOPMENT LLC  
CLEAR RIVER ENERGY CENTER

DOCKET NO. SB-2015-06

MOTION FOR LATE INTERVENTION, INTERVENOR STATUS  
RESIDENTS OF 945 WALLUM LAKE RD, PASCOAG RI

1. INTRODUCTION

Pursuant to section 1.10 of the Energy Facility Siting Board(EFSB) Rules of Practice and Procedure, the undersigned residents who live in the immediate vicinity of the above referenced matter file this motion for late intervention. The residents' intervention in the matter is appropriate and in the public interest. Accordingly, this Motion for Intervention should be granted.

2. ARGUMENT

Section 1.10(b) of the EFSB rules of practice and procedure provide that "any person claiming a right to intervene or an interest of such nature that intervention is necessary or appropriate may intervene in any proceeding before the Board." The residents live on Wallum Lake Rd in the immediate vicinity of the proposed project and its access road. The project will have a direct impact on their property and lives both during construction and operation phases. They are not adequately represented by existing parties and may  
be bound by the Boards action in the proceeding.

CREC will consist of a combined cycle electric generating facility to be located at the Spectra Energy Algonquin Compressor station site, on Wallum Lake Rd in Pascaog, RI. The project site is located in a forested predominantly rural area. The closest residents live approximately 0.10 miles from the northeast corner of the property. The residents have a genuine interest in preserving their property and are concerned about the adverse economic impact the CREC project will have on their property values. Other concerns are the impact of traffic during construction, the negative environmental impact on the land, water, and especially the air quality. The impact on the aesthetic and recreational value and rural feel of the neighborhood. These residents in the immediate vicinity will be deprived of the full use, enjoyment, and possibly their future on their property should the project be approved.

3. Conclusion

Based on the reasons stated herein, as well new information that has been presented to us as to the location of the access road, and the lack of representation by other parties. We the undersigned residents of 945 Wallum Lake Rd, across the street from the CREC project respectfully request that the EFSB grants this Late Motion for Intervention.
